CENTER

RESTORING HEALTH, PROVIDING HOPE, TRANSFORMING LIVES

Good health should not be a privilege reserved for those who can afford it. Through better fitness, function, and wellness, Challenge Center enables seniors and persons with disabilities to work, learn, enjoy, and engage in their families and communities.

Challenge Center provides affordable long-term rehabilitation to those who have survived catastrophic injury or illness. Each year Challenge Center provides over 13,000 hours of direct patient care to more than 400 veterans, seniors, adults and children with physical disabilities and their caregivers. Many of the Center's consumers are on a limited or fixed income and cannot afford private therapies or trained exercise assistance. Their insurance has reached the coverage limit and they have no other option to continue improving their function. As such many lose all hope for regaining what they have lost. Challenge Center subsidizes this care for low income and underinsured/uninsured individuals, and those who have exhausted their insurance coverage. Finding Challenge Center renews hope and provides opportunities for people to regain independence, maintain their health, and return to their lives.
